

Think Piece 2
Due Wednesday, October 13

The author of Hôjôki, Kamo-no-Chômei, has been described as bearing witness to his times. In what ways would you judge this characterization to be true? Think broadly. (300-600 words)

This is a “think piece,” meaning that it is a short, thoughtful response (300-500 words), not a full-blown essay with a fleshed-out argument. Email me your paper as a DOC or RTF of Apple Pages file and come to class on the due date with a hard copy.
